VIRTUAL WHITEBOARD

What?
is Touché

Touché is a project in computer vision, that uses open-cv and media-pipe libraries for object detection.

Touché

VIRTUAL WHITEBOARD

How?
is Touché

- Design
- Camera Canvas
- Hand Detection
- Landmarks
- Graphical Segmentation
- Finger Placement
- Conditions and Colors
- Drawing Canvas
- Merging

Touché

VIRTUAL WHITEBOARD

Why?

Is Touché

- Saving Time
- Easier Learning Experience
- Portable
- Scopes of Transformation
